

TONNEAU BULLETIN

Rugged Folding Cover Latch Update

We have removed the slots on the latch cylinder so the collar will slide smoothly.

New Latch

Before

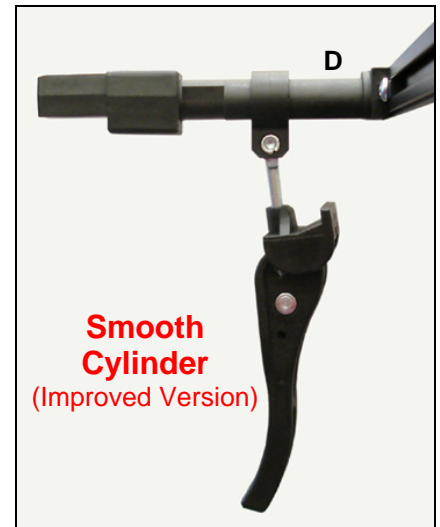

Features

- A. Set screw Exposed.
- B. Handle storage location on side rail.
- C. Threaded rod mounts on pivot point below the collar.
- D. Removed slots on cylinder.

Benefits

- Adjustable bow and latch for relocation or replacement.
- Prevents puncture of vinyl when folding.
- Relieves pressure on the threaded rod during the latching motion.
- Collar slides smoothly from side to side.
