1 Pc. Driver's side Inner Wheel Well Liner

Tools Required

No. 15 Torx screw driver
for Mud Flap removal

Preparations:

Installation requires the Tires to be removed.
Clean the interior panels of the rear Wheel house.

**Installation time
estimated: 20 min.**

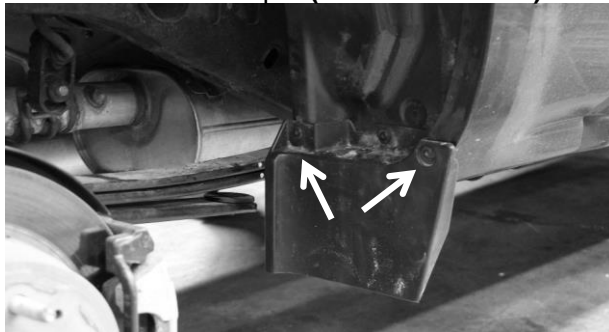

Instructions:

1. PLEASE READ INSTRUCTIONS CAREFULLY BEFORE STARTING THE INSTALLATION.

NOTE: One person can do the installation.

2. Starting on the Passenger's side, remove the tire.

3. For Trucks with Factory Mud Flaps: Using a No. 15 Torx screw driver, remove the 2 screws that hold the Mod Flap. **(Save the screws)**

Note: For Trucks without Factory Mod Flaps, Step 3 is not necessary

4. Mount the Inner Wheel Well Liner marked as (PS) inside the inner panel of the wheel house.

5. Insert the bottom sides behind the metal flange

6. Insert the upper section of the plastic liner behind the metal flange, make sure all around edges are inside the metal wheel well house edge.
